Profile

Product designer for India's payment infrastructure. At NPCI I turn regulation, settlement and certification into flows that regulators, banks and people trust, from India's first tokenized bond settlement on the digital rupee to a wallet 10+ banks run on. I lead discovery with RBI teams and partners, and I ship working prototypes instead of slides.

Impact, settled BEFORE AND AFTER

Product	What changed	Settled
CBDC × Tokenized Assets	One atomic trade for bond and e₹ over RBI's Unified Markets Interface	~~Days~~ **Real time**
iUPI Certification Portal	Automated testing for 15+ international launches	~~6 weeks~~ **10 days**
Nfinite Certification	Redesign validated in usability testing; +40% satisfaction	~~3 months~~ **21 days**
CBDC and UMI Sandbox	Inaugurated by the RBI Governor at GFF 2025	**150+ fintechs**
e₹ Wallet and denominations	Consumer wallet used by 10+ banks; offline payments improved	**35% faster**

Experience

Sr. Associate UI/UX Designer
Oct 2023 to present

National Payments Corporation of India (NPCI), Mumbai

- **Led design for India's first tokenized bond settlement on CBDC**, from discovery with regulators, market institutions and banks to live demos for RBI leadership; launched at GFF 2026.
- **Designed the RBI-backed CBDC and UMI Sandbox** as four guided stages from idea to first live call; 150+ fintechs onboarded.
- **Shipped India's first programmable CBDC** (live in Gujarat and Odisha) with purpose-bound tokens, plus the consumer e₹ wallet now used by 10+ banks.
- **Cut certification cycles** on iUPI (6 weeks to 10 days) and Nfinite (3 months to 21 days, 100+ new partners, +55% year on year).
- Now designing **NPCI Onboard**: agentic TPAP certification with AI document checks and live scoring.
